

Ian Walker

IT Project Manager

Ian Walker serves as Project Manager for RiverFront's Technology Team, helping RiverFront hone its project management standards. Walker first joined RiverFront as an independent contractor in 2020, before coming on full time in 2021. During his 15 years in IT, Ian has worked on and led IT projects for companies like IBM, Capital One, and Bank of America. He enjoys maximizing productivity by leveraging all the amazing resources that Microsoft Office365 has to offer.

In 2014, Ian received an MBA from Strayer University, where he also minored in project management. Ten years prior he earned his Bachelor of Arts in Biblical Studies.

When he isn't planning and organizing IT initiatives, Ian is at home wrangling his 4 children. Ian enjoys swimming in the summers and snowboarding in the winters. Whenever possible, Ian likes to serve on multiple mission trips throughout the year, some local and some foreign. These trips have taken him as far as Chile and as close as the southside of Richmond.

COMMUNITY INVOLVEMENT

"Currently I have been involved with Christian charities providing water filters to countries that have water issues. We use this opportunity to share our *love and faith.*"
